Thanks To Our Reviewers

It is a great pleasure to thank the volunteer reviewers, without whom we could not publish Agrosystems, Geosciences & Environment. Despite the demands of their everyday duties, the individuals listed below took time to assist the Editorial Board by completing reviews of one or more manuscripts during 2018. They demonstrate professionalism in the best sense. For their anonymous, unpaid efforts, we owe them thanks. Every effort was made to compile an accurate list from the records kept by Editorial Board members. We extend our apologies and thanks to those reviewers whose names have been inadvertently omitted from this list.
