3. VISUAL AIDS IN EXTENSION WORK

L. F. Graber

By far the most effective means of bringing about better agronomic practices is the field demonstration. Here the results of lime, inoculation, fertilizers, varieties, and cultural practices are made

1Summary of a paper read as a part of the symposium on "Methods and Relations in Extension Work in Agronomy" at the meeting of the Society held in Chicago, Ill., November 16, 1925.

2Professor of Agronomy, University of Wisconsin, Madison, Wisc.
