The eleventh annual conference of the Western Section of the American Society of Agronomy was held at Moro, Oregon, from June 27 to 29. There was a total attendance of 53, nearly all of whom were experiment station and extension workers. The attendance by states was as follows: Oregon, 28; Washington, 9; Idaho, 7; Montana, 2; Utah, 2; California, 3; and U. S. Department of Agriculture, Washington, D.C., 2.

The conference was called to order at 9:00 a.m., June 27, by Mr. D. E. Stephens, Supt. Sherman County Branch Experiment Station, Moro, Oregon, who delivered the address of welcome as President of the Western Section of the American Society of Agronomy. The report of the Secretary of the 1926 meeting at Logan, Utah, was read by A. E. McLymonds, Supt. Experiment Station, Aberdeen, Idaho. Following this was the roll call when each one present gave his, name, position, and statement of lines of investigations. The following program of papers and discussions was presented.

**SYMPOSIUM ON "CEREAL CROPS"**

   - J. A. Clark, U. S. Dept. of Agriculture, Washington, D.C.
   - Discussion: D. E. Stephens.

3. The Resistance of Winter Wheat Varieties to Low Temperature.
   - D. D. Hill, Associate Agronomist, Oregon.

   - Discussion: H. M. Wanser.

5. Effect of Delayed Harvesting on Quality of Wheat.
   - A. F. Bracken, Supt. Experiment Station, Nephi, Utah.
   - Discussion: H. M. Wanser.

   - E. N. Bressman, Associate Professor of Farm Crops, Oregon Agricultural College.
   - Discussion: E. P. Gaines.

7. Relative Shattering of Oat Varieties at Moro, Oregon.
