2001 Sustaining Members and Official Representatives

The American Society of Agronomy is pleased to recognize its 2001 Sustaining Members and their official representatives. Sustaining membership is designed for companies and organizations engaged in the agronomic and related sciences. The Sustaining Member firm designates a staff member as their official representative, and this person receives all the privileges of active membership in the American Society of Agronomy, Crop Science Society of America, and Soil Science Society of America.

Firms that have held sustaining membership for 40 or more years are entitled Cornerstone Sustaining Members, 25–39 years are entitled Silver Sustaining Members, and those with 15–24 years of sustaining membership are entitled Crystal Sustaining Members.
