Registration of ‘Eltan’ Wheat

‘Eltan’ (Reg. no. CV-766, PI 536994, WA007431, VHO72298) is a semidwarf soft white winter (SWW) wheat (Triticum aestivum L.) cultivar that was developed in the cooperative state-federal research program at Pullman, WA. It was jointly released by the College Agricultural Research Center, Washington State University, the USDA-ARS, the Idaho Agricultural Experiment Station, and the Oregon Agricultural Experiment Station in July 1990. Eltan was named in honor of Elmo Tannenberg, a wheat producer from Douglass County. Mr. Tannenberg has been a strong supporter of the cooperative state-federal research program at Pullman, WA.

Eltan is adapted to the wheat growing areas of northern Idaho, eastern Oregon, and eastern Washington. Breeder and foundation seed will be maintained by the Washington State Crop Improvement Association under supervision of the Crop and Soils Sciences Department, College of Agriculture and Home Economics Research Center, Washington State University, Pullman, WA 99164-6420.
