### CSSA Officers, Boards, and Committees, 1999

The function and activities within the associated Societies are divided into major areas as follows:

</tbody>
</table>

The prefixes A, C, and S designate the American Society of Agronomy, Crop Science Society of America, and Soil Science Society of America, respectively. Each name is followed by the year (term of expiration) in office, title, and location of individual. Some names are repeated because the person is chair for one term of office and a member for another term. The number (9999) means the person’s term is indefinite. The printed version here dates from February 1999. Additional persons will be appointed to some committees and additional committees will be appointed during the course of the year.
