Enumeration of Soybean-Associated Rhizobia with Quantitative Real-Time Polymerase Chain Reaction

Branden J. Furseth, Shawn P. Conley, and Jean-Michel Ané

In Volume 50, Number 6, the following sentence in the Materials and Methods section on page 2593 should be:

Reaction mixtures were a total of 20 μL each, containing 1 μL of template, 10 μL SYBR Advantage, 0.2 μM of fluorescein, and 10 pico moles of each primer.
