Meetings

Thank You Annual Meeting Volunteers

The leadership tasks of a Division/Section chair are much more than presiding over the annual business meeting. Along with the program planning officers and program chairs, Division/Section chairs provide the necessary service of framing the structure of the Annual Meeting (www.acsmeetings.org). Our current chairs have already spent countless hours identifying symposia and session themes for the 2016 meeting in Phoenix. When you see these hard-working volunteers at the meeting, be sure to thank them for their service. They deserve our recognition.
