ERRATA

**Fungicide Treatment of Wheat Seed: Is it Necessary?**

An error occurred in the above article which appeared in the January-March issue, 1975 of the *Journal of Environmental Quality*. On page 119, second column, beginning 9 lines from the bottom, the amount of seed that would need to be consumed for a game bird to get a "probable lethal dose" should read Panogen-1,042 g; thiram-96.2 g; PCNB, HCB, or maneb-481 g; and captan or carboxin-11,904 g.

**Land Application of Sewage Sludge: I. Effect on Growth and Chemical Composition of Plants**

An error occurred in the Abstract of the above article which appeared in the April-June, 1975 issue of the *Journal of Environmental Quality*. On page 252, the first part of the first sentence of the last paragraph in the Abstract is missing. The entire sentence should read, "The elemental content of the harvested sorghum sudangrass plants and wheat grain tended to increase with increasing sewage sludge application except for lead and phosphorus."
