AGRICULTURAL CONSERVATION PLANNING FRAMEWORK: 2. CLASSIFICATION OF RIPARIAN
BUFFER DESIGN-TYPES WITH APPLICATION TO ASSESS AND MAP STREAM CORRIDORS

Six Supplemental Figures
Captions to supplemental figures:

Figure S1. Map of watershed 1 showing buffer-design types across the stream network.

Figure S2. Map of watershed 2 showing buffer-design types across the stream network.

Figure S3. Map of watershed 3 showing buffer-design types across the stream network.

Figure S4. Map of watershed 4 showing buffer-design types across the stream network.

Figure S5. Map of watershed 5 showing buffer-design types across the stream network.

Figure S6. Map of watershed 6 showing buffer-design types across the stream network.
Figure S1. Map of watershed 1 showing buffer-design types across the stream network.
Figure S2. Map of watershed 2 showing buffer-design types across the stream network.
Figure S3. Map of watershed 3 showing buffer-design types across the stream network.
Figure S4. Map of watershed 4 showing buffer-design types across the stream network.
Figure S5. Map of watershed 5 showing buffer-design types across the stream network.
Figure S6. Map of watershed 6 showing buffer-design types across the stream network.
