Symposium to be Held in Missouri

Note

Part of “Ode to the Diversity of Pedons” was inadvertently left out in the 1982 Spring issue. Below is the other stanzas to complete the Ode.

Now the’re Ochrepts,
Now the’re Andepts,
Now the’re Umbrepts,
Now the’re Aquepts.

Ah, how various is the scene
In which soils find their demesne!

Now the’re Borolls,
Now the’re Ustolls,
Now the’re Xerolls,
Now the’re Udolls,
Now the’re Petrocalcic Calciaquolls!

Now the’re Orthods,
Now the’re Humods,
Now the’re Ferrods,
Now the’re Aquods.
