Soil Consultants Directory to be Compiled

George D. Bailey

There is a need for a list of firms and individuals engaged in soil consulting. As a service and as a matter of interest to readers, a directory of soil consultants will be published in a future issue of Soil Survey Horizons. The listing of your firm or name in the directory will not constitute an endorsement. The list will include both consulting firms and self-employed individuals (full- and part-time). The data will be listed by states or region. ARCPACS certification for individuals will be included in the listings where applicable, but is not a prerequisite for inclusion in the list.

To enter your name or company in the directory, fill out a facsimile of the form below and mail it to G. D. Bailey, 15600 Wembrough Street, Silver Spring, MD 20904.

(Please type or print clearly)

Individual name: __________________________________________________________

or

Organization name: ______________________________________________________
