Alabama Soil Classifiers Meet

The 1989 Annual Meeting of the Professional Soil Classifiers Association of Alabama was recently held on the campus of Alabama A&M Univ. in Normal, AL. The meeting consisted of a technical session, business meeting, and banquet.

Highlighting the technical session was a tour of the Remote Sensing Lab. conducted by Dr. McArthur Floyd, Associate Dean for Research. Other speakers on the agenda included Dr. Ramble Ankumah, Tuskegee University, who presented a discussion on pesticide degradation in soils and Dr. Patrick Agbu, Alabama A&M Univ., who compared soil survey data to other methods of data gathering, with emphasis on satellite digital data.

A business meeting followed the technical session and topics of discussion included time of dues paying, development of a Code of Ethics, and duties of the Examinations Committee. David Gray announced that a statewide conference on Onsite Sewage Disposal was being planned for early 1990 and encouraged members to attend. It was announced that two members of our association had died since our last meeting. These members, Mr. Ernie A. Perry, former State Soil Scientist of Alabama and a charter member, and Mr. Thomas C. Mathews were remembered for their contributions to the profession.

Newly elected officers for the 1989-1990 term are:

President: Gregory R. Brannon
President-elect: Glenn L. Hickman
Secretary-Treasurer: George Martin

Anyone interested in information about the association may contact: George Martin; P.O. Box 84; Auburn, AL 36830.
