Two Year Subscriptions ($4):

Three Year Subscriptions ($6):

Henry W. Smith, James V. Drew

One Year Subscriptions over $2:

Roger Baril ($2.25); Soil Survey of England and Wales ($2.50)

In the late mail, as we go to press, come the following subscriptions:

A meeting was held at Roswell, N. M., on Feb. 5, 6, & 7, '63 to correlate irrigation intake rates & water-holding capacities of soils and Land Capabilities. The area included Trans Pecos area of Texas and S. E. New Mexico. Soil scientists attending were: R. O. Taylor, Harry Hecker, M. T. Turner, Jack C. Chugg of N. M.; J. R. Coover, R. E. Fox, R. D. Daniel; H. B. Jaco of Texas.

George Buntley designs SSA seal.

Long-time subscribers to Soil Survey Horizons will note a similarity between the beautiful cover design on Vol. I No. 2 (still available from the publication office in Madison, Wis.) which George Buntley made in honor of the 7th Congress of the International Soil Science Society, and the newly adopted seal of the Soil Science Society of America, shown here. Professor Buntley took his B. S. and M. S. and Ph. D. degrees at South Dakota State College, where he has been a soil survey leader. George is an artist and musician, as well as a pedologist.

Forest Plantation Cards......

Earl L. Stone, Reeshon Feuer, and Hugh M. Wilson have released a fine SCORECARD for judging land for forest plantations (Cornell Extension Bul. 1075; Ithaca, N. Y.).
